

## Partnerships towards Commercialising Clean Technology

**Sustaining our Future through Innovation and Clean Technology** is the focus of this Adelaide Series event. Manufacturing in South Australia is an important contributor to the wealth and economic stability of the Australian Economy, with the potential to play an even more strategic role for the nation in coming decades. This exciting event will highlight AMTIL, AIIA and SA Manufacturing success stories in association with Australian Innovation.

The Clean Technology series will present energy efficiency, technology insights, energy generation and waste management solutions for leading SA organisations.

**Date:** Thursday, 21 November 2013

**Time:** From 5.30pm to 8.00pm,

**Venue:** KPMG, 151 Pirie Street, Adelaide, SA
